Report Remarks

iWireless may offer certain handsets that are capable of operating on more than one air interface. iWireless currently operates only on the GSM air interfaces in Wellman telephone territories. The Commission has made it clear that the HAC handset phase-in requirements specified in Section 20.19(c)(3) apply only "for each air interface it offers." Report and Order, 18 FCC Rcd 16753 (1002) at Para. 53. Moreover, these handset phase-in requirements are triggered only after a service provider has begun offering service using a particular air interface. Memorandum Opinion and Order. 22 FCC Rcd 7171 (2007) at Para. 60.

You have reported the following handset model summary information.
